

Figure SAPBS-2
Impact of removing low-quality publications from Scopus, by selected region, country, or economy: 2008–22

Note(s):
Articles are credited on a fractional count basis (i.e., for articles from multiple regions, countries, or economies, each region, country, or economy receives fractional credit on the basis of the proportion of its participating authors). Percent change is computed as the difference in number of publications between the filtered and the unfiltered approaches divided by the number of publications in the unfiltered approach.
